TEAM COLLABORATION

Grow

5 students on school leadership team have to plan an inclusive school event. Their goal is to put on a Unified dance during Kindness Week.

Shelby and Deon assign roles without talking to Trevor, Malia, or Josh.

Malia is told she has to create a budget, but really dislikes math.

Trevor is asked to make posters. He ignores them and starts to make a playlist instead.

Josh is great with numbers, but he's unsure how to tell the others. He writes a morning announcement.

What are 2 issues with the team's collaboration?

A. They didn't outline goals.

B. The team isn't diverse.

C. The members don't understand the strengths and weaknesses of the group.

D. They are struggling with communicating and listening to one another.

What will happen if the group doesn't start to collaborate?
